

## STOLEN BASE CHARTS

Obtain a random number and refer to the chart, using the SP rating of the man or men involved. If the chart indicates the player does not steal, he simply holds base. ## RUNNERS ADVANCING ON BASE HITS

Runners advance one base for a single, two bases for a double and three bases for a triple. However, the offense has the option of trying to advance runners extra bases on the hits, such as two on a single and three on a double. If such an attempt is to be made, use the proper chart and refer to both the OBR of the lead runner and the THROW rating of the outfielder involved in the play.

## DEFENSE OPTION PLAY CHART

The offense decides whether to send runner on third home. The defense then has the option of either making a play at home or allowing runner on third to score, retiring batter at first. If runner is coming home and defense decides to try for the lead runner, select a new random number and read result from chart below.

<i>RUNNER RATING</i>	<i>NEW RANDOM NUMBER</i>	
	<i>RUNNER SAFE</i>	<i>RUNNER OUT</i>
OBR: A	11-48	51-88
OBR: B	11-42	43-88

### ADVANCING ON FLY BALL OPTION

The out charts call for the automatic advance on fly outs, but often you may wish to try to advance a runner. If so, use the table below. Consult advancing runner's OBR rating and outfielder's arm rating. Player rated OBR: E cannot try to advance. When a play is made on the advance attempt, all other runners advance.

<i>RUNNER</i>	<i>OUTFIELDER ARM RATING</i>			
<i>OBR RATING</i>	<i>T2</i>	<i>T3</i>	<i>T4</i>	<i>T5</i>
A	11-48	11-41	11-35	11-26
B	11-45	11-36	11-27	11-18
C	11-42	11-33	11-24	11-15
D	11-36	11-26	11-21	11-18

If fly out is deep, add 20 to safe chances. This chart is OPTIONAL.
