

Since all other Plaay.com games have some form of 'Great Teams Of The Past' sets I thought it would be cool to have one for Roller Rumble too. The other thought was to cover teams for which I have enough old video footage to rate the team(s) itself but not enough to rate all teams that skated in the league in that particular season.

This set features 10 teams from different eras and different leagues incl. the original NRL, ISC and the short lived American Roller Racing. All of these did not have a Pivot skater so you may use any skater in that slot.

During the year I may create a second set when I have a chance watch some more of my old tapes.
